The propriety of placing a suitable monument over the remains of Hon. F. S. KEY, author of the national song, "The Star-Spangled Banner," is

suggested by a correspondent in the Frederick Republican. Mr. Key's remains are deposited in Mount Olivet Cemetery, at Frederick, Md. Meanwhile the Porte has entered a protest against the whole project of an American Colony in Palestine. The gamblers of Cincinnati are greatly excited

over the rigorous enforcement of the law against them. Two firms dealing faro, Messrs. MEADER & Co., and Woodnurr & Co., were fined \$1300 each in the Court of Common Pleas on Thursday. Another was fined \$500 a few days ago, and sent to jail for ninety days. A college for young colored men has been estab-

Refractory soldiers in St. Domingo are brought to their senses in an amusing manner. A Paris letter, dated December 25, says: "The reception of G.n. Dix on Sunday last at the Tuileries was surrounded by circumstances which must have made the event peculiarly gratifying to the General, as it certainly did to all the General's countrymen. It was the first time, if I recollect right, that the Emperor sent a court carriage for the American Minister; it was certainly the first time that he sent a State carriage, four horses and outriders. The manner of reception is said, also, to have been most cordial. Four or five new representatives of other Governments were presented the same day, but the American Minister was called first, and thus gained precedence on official occasions over those who followed."

CHARLESTON. TUESDAY MORNING, JANUARY 15, 1867.

"GOVERNMENTS ARE FOR THE BENEFIT OF THE GOVERNED."

"Mr. SUMNER, of Massachusetts, on the 8th instart, presented the pelition of William Brown, and other colored citizens of Massachusetts, respectfully remonstrating against the admission of Nebraska as a State with a constitution disfran-chising citizens on account of color, and assigning various grounds of objection. Among them that the bill disfranchised a class because it was that the bill disfranchised a class because it was numerically inferior; that the experience of the last six years showed that suffrage could be safely entrusted only to loyal citizens,—the colored citizens being universally loyal; that loyal citizens should not bear the burden of taxation without representation; that, as it was evident that political power in the rebel States could be trusted only to loyal citizens, and no permanent and peaceful reconstruction could there be made except by enfranchising loyal citizens, without distinction of color, it was advisable to allow what might be an outering wedge to the admission of the rebel States ontering wedge to the admission of the rebel States ontering wedge to the admission of the rebel States with the same prevision; that colored people have shown themselves capable of exercising this right properly; in Massachusetts and claewhere, and would show themselves equally worthy of it under any republican form of government. In view of these facts, they pray that, in the formation of all new States, Congress shall see to it that all power is derived from the consent of the governed." total receipts to the present time have been not

The sucre is an extract from the proceedings of Congress of Tuesday last. We need not state that Mr. Sunner endorsed every word in the petition, as it is well understood that, if he does not draw up these politions himself, it is done at his direction. When we had read this much, we wondered where were the "letters" by which the honorable Senator always corroborates his views. We had not to wait long. In the subsequent debate on the Nebraska Bill, Mr. SUMNER "read two letters from members of the Republican party in Nebraska, protesting against the passage of the bill with the word "white" included, and hoping that an opportunity would be given to her to form the first Republican Constitution that had ever been presented to Congress."

It might have been objected, and not without reason, that Massachusetts negroes had nothing to do with the proposed Constitution of Nebraska: but Mr. SUMNER does not rest his argument upon the "petition," and strengthens it by these said "letters" (always at hand) from members of the Republican party in

The Democratic and Conservative Republican members plead for the ancient landmarks; for the admission of this new applicant to the confederation of States, upon the same terms as all her antecessors. They cannot see why important letter on the subject of the position of new conditions should be imposed upon the their status toward the State after their return. insertion of the word "white" in some of the clauses of the proposed constitution renders the same un-republican in form. Similar constitutions heretofore have not been connot even shown that there is a single negro to the late war he was Professor of Tactics in the fact the colored citizens of Massachusetts are candid enough to admit that they do not care whether blacks may vote in Nebraska or not; but they call the attention of the Senate to the danger of admitting a new State with a 'white" Constitution; it might be an "entering wedge to the admission of the rebel States. with the same provision."

done in Congress,-every bill proposed, resolution offered, memorial presented, is measured by the Radical canon. "How will it affect the interests of our party?" The people in the Southern States are held as irreclaimable reprobates .-- never can become the subjects of a Radical conversion. They must, therefore, be kept out of the pale of congressional salvation. South Carolina Senators will never vote for a Simon Pure Rupublican measure, so the oue thing, above all others important, is to keep these pertinacious rebels from voting at

Still it must not be supposed that the Radicals are altogether indifferent or inactive in regard to this vast neutral territory. Every week we hear of "delegations" from Louisiana, Arkansas, North Carolina and Virginia, asking that the present government be set aside in these States, and a loyal rule substituted therefor. It is understood that Secretary HARLAN recently spent several days in this city with a view of getting up such a delegation; and we shall not be surprised to read, in a few days, that the Hon. CHARLES SUMNER offered a petition from sundry loyal citizens in South Carolina, etc.; or, it may be, that the South Carolina "delegation" had reached Washington. If so, it will be found that said deputation consists of Yankee preachers, Yankee schoolmasters, ex-sutlers, and Federal office-holders. These barnacles on the ship of State, together with a smart sprinkling of the Freedmen's Bureau proteges, call themselves

Ah! but they are loval. And what is lovalty? A few years ago the word was unknown on this side of the Atlantic. Now we not only have this added to the catalogue of virtues, but it has displaced charity, and covers a multitude of failings. Intelligence, honesty, blamclessness of life, go for nothing, -and these requisites are out of date. If you are loyal, you re a good citizen, and entitled to power. In the South, we learn from the petition quoted at the head of this article, loyalty is of a particular color. "Loyal citizens alone are entitled to have a voice in the government of these States." The colored people are all loval. ergo, the colored people should govern, and by inference we are to read-the colored people only are loyal, and, therefore, they only miles. During the forty-one years which have should rule. These are the present views of the Radicals .- far, far, in advance of what these same politicians advocated a few years ago; and the old leaders of Black Republicanism are now in disgrace.

forgooth the people of South Carolina.

What a singular revolution in our national politics? When ANDREW JOHNSON and WIL-LIAM H. SEWARD have become martyrs for give entire satisfaction.

May 12 Southern Rights; and when CHARLES SUMNER has to weep over the anostacy of BEN. WADE! Heretofore, by the spirit of our Constitution, a community was considered to have the right to determine by a majority of its citizens, who shall, and who shall not vote. President Jounson, in his recent veto message, took this oldfashioned ground in favor of the people of the District of Columbia, and is laughed at for his pains. Negroes of Massachusetts now claim to determine questions of suffrage for Nebraska, and a handful of so-called "South Carolina loyalists" have the shameles, assurance of asserting that their rights are not respected here, and that, therefore, the existing Government should be made to give way for

Since the foregoing was written, we learn that both Nebruska and Colorado, on the 9th, were admitted as States in the Union, with the proviso that the Acts shall take effect "with the fundamental and perpetual condition that within said States there shall be no abridgement or denial of the elective franchise, or of any other right, to any person by reason of race or color, excepting Indians not taxed." Upon which the World comments:

one of their choosing.

This further legislation is supplementary to the enabling acts with whose conditions the Territo-ries must have complied in forming their constituries must have complied in forming their constitu-tions for admissions as States, and it is yet to be acted upon by the Territories, with a possibility of rejection when it is considered that the proposed franchise includes the Chinese, who are more apt to flock to the mining regions than are the ne-groes, who are few and far between in either of those Territories. It was stated last winter that the population in both Territories was too small to warrant the admission of the Trrritories as States; that the statistics were untrustworthy because the population was migratory, going from one Territory to another, as mining prospects invited; and the exclusion of both Colorado and Nebraska was the exclusion of both Colorado and Nebraska was urged on these very grounds. Without any further-or more reliable information on these points, the Senate seems willing to admit them now, if they will only comply with the condition precedent about suffrage. This readmoss and even eagerness to admit new States whose qualifications as States are to say the least doubtful continued. tions as States are, to say the least, doubtful, con trasts strangely with the equal anxiety on the part of the Radical majority to thrust the Southern States out of the Union, and to revert them to a territorial condition.
